1. Mr. Borden, Director of the staff of the Joint Atomic Energy Committee, called to state that the Committee had met this morning on the CIA semi-annual report, and now wished further comments as to the detailed basis of the report. They also wished a further report on Soviet interception capabilities. A letter is being prepared enclosing these requests. I pointed out to Mr. Borden that they were tightening security regulations on the dissemination of the CIA materials, particularly in so far as they are connected with intelligence sources and methods. I have informed Mr. McConnell as to the background of these requests.

2. Certain legal problems were discussed with
